Dear Mr. Marcelo:

re: SN: 10/051,360; Pat. Appl.: Diversity Communication
System and Method of Operation There.

Enclosed, please, find two additional copies of
our CRC reports that are referenced in this patent
application. I am also enclosing legible copies of
the requested corrections. Unfortunately, Mr. Gernstein
received them from us too late to be submitted
before the date USPTO stated in their letter.
I hope this will satisfy all concerns.

Sincerely yours

J. Nigrin
